

CURRICULUM LEADERS

MEET OFSTED EXPECTATIONS

- > Develop a vision for a whole-school curriculum
- > Focus on 'curriculum intent'
- > Learn from best practice in curriculum design

LEAD AN AMBITIOUS CURRICULUM

Our brand-new Curriculum Leaders programme helps senior leaders to improve how and what pupils learn, alongside outcomes and test results. It gets schools ready for Ofsted changes around assessment and offers high-quality professional development, backed by the latest curriculum research.

Benefits for senior leaders

- > **Drive curriculum change.** Develop the skills and knowledge to confidently change the curriculum in your school. Work with your senior leadership team to create a 'vision of intent' for your school-wide curriculum.
- > **Improve pupil outcomes.** Support pupils, particularly the most disadvantaged, to gain the knowledge and cultural capital they need to succeed in life.
- > **Access sector-leading resources.** Learn from the latest research and access high-quality examples and models across subjects and stages. These include school-wide vision statements, progression maps and teacher educator materials.
- > **Gain peer-to-peer support.** Build close relationships with colleagues facing the same challenges. Practise taking concepts from the training into school to embed your learning.

Benefits for schools

- > **Meet Ofsted expectations.** Investing in senior leadership training that focuses on 'curriculum intent' means your school will be fully aligned with the new Ofsted framework.
- > **Lead school-wide improvement.** Your senior leaders will develop a clearly thought out, ambitious vision for a whole-school curriculum.
- > **School-wide impact.** Help senior leaders develop a curriculum framework for their school.
- > **Promote professional development.** Senior leaders will share learning with colleagues. This will help make sure the new curriculum model is understood by your school's middle leadership team and introduced across all subjects.

What will participants gain?

- > Skills and knowledge to develop and implement a vision for a school-wide curriculum and forensically measure the impact of this in their school.
- > Tools to train middle leaders to apply the new curriculum vision.
- > Training informed by the latest research and evidence in curriculum design.
- > Opportunity to share best practice with leaders in our network who have direct responsibility for the curriculum in their school.

How will participants learn?

- > Face-to-face facilitated sessions in nine development days will allow participants to use the latest evidence – from key practitioners such as Willingham, Oates and Young – to learn effective curriculum design skills.
- > Peer group sessions support senior leaders to use the knowledge they've gained on the programme to problem solve and share ideas with colleagues.
- > Participants will practise applying what they've learnt in their own school context through independent work and feedback from peers.

What does the training cost?

The programme costs £3,500 per senior leader. They need to have direct responsibility for leading the curriculum across their whole school.

About Ambition Institute

We are a graduate school for teachers, school leaders and system leaders with charity status. Our programmes help educators serving children from disadvantaged backgrounds to keep getting better.

Children from disadvantaged backgrounds don't do as well at school. We are working to change that. Through our programmes we want to ensure there are expert teachers in every classroom being led by exceptional school leaders at all levels.
