

OLEVI

The OLEVI Coach CPD Module: *Coaching for Confidence.*

The best coaches can help colleagues believe deeply in themselves so very little can shake their confidence to achieve their goals. Coaches on this programme will explore theory, hone their skills, and acquire new strategies to use coaching to explore and grow people's self-respect, self-assurance and self-determination.

This module consists of 3 focused sessions of 90 minutes over a 3-4-week period and it includes practical resources to use. It is designed for delivery online.

This module is open to all accredited OLEVI Coaches. They will be able reflect deeply on their own confidence and how they can grow it further. Through acquiring the theory, skills and resources, you will be able to help others to do same.
